

----- LOCAL YL GOES FROM REALLY VICIOUS TO EXTREMELY SEXY -----

As I monitored our 34/94 club repeater on Friday 9/25, I heard a YL sign sign "NIESW." Much to my surprise, it turned out to be Tanya Delancy, the now-former WALRVG. My ears did not deceive me, she really went through with it! Anyway Tanya, it's a nice call, and you really weren't vicious anyway, regardless of what J. D. says!

----- ANGUISHED AMATEUR AND WAYWARD TALKIE REUNITED! -----

I also heard yesterday (9/25) that Marvelous Marv Weatherly and his missing Kenwood TR-2400 2m handie-talkie had been recently reunited. If you will recall from a previous edition of your newsletter, our Crimestoppers department had put out an APB for the missing HT, which had been surreptitiously lifted from Marv's Corvette. As it turned out, some fellow walked into Tom Berticevich's Reliable Electronics a while back with a TR-2400 in tow, wanting to know how much it was worth. Tom checked out the serial number of the unit against the Crimestoppers Report, and they matched! So he persuaded the gentleman to leave the radio with him, and subsequently got it back to Marv, who reports that it is undamaged. Honesty and virtue triumph again!

***** October 1981 *****

----- OLD BUD SAYS THANKS! -----

And he would have said it last month had I not forgotten! Anyway, Bud Epperson put up a Wilson System 40 monster tribander back in August, thanks to some help from, to name a few, JD Delancy K1ZAT/NL7, Wilse Morgan KL7CQ, David Stevens KL7EB, Butch KL7OG, Al Bianco KL7FKO (who entertained the workers), and a host of others. They did a good job because Old Bud is working a lot of DX now. Sorry I forgot last month, Bud. I'm good at that!

----- ARTS FAIR EXTRAVAGANZA! -----

A beautiful fall day. Flea Market raffle tickets which sold like hotcakes. Written traffic for Outside being taken and passed via the HF bands. A fast scan television demonstration with pictures of closed-circuit quality. Lost children being happily reunited with worried parents. This was ACC Arts Fair 1981, Saturday, September 12, 1981, another successful public service function for the Anchorage Amateur Radio Club.

The club established a 2-meter phone net on 146.52 MHz with base stations donated by Larry Walter KL7IWC, Bob McKinnie AL7AW, Don Koehler WB7WHK/KL7, and David Stevens KL7EB. Antennae for the base stations were provided by Tim Pettis KL7WE, David Epstein KL7LO, WB7WHK/KL7, AL7AW, and KL7IWC (OK, so we had a spare!) According to our sign-in sheet, the following amateurs donated their time and participated in the VHF communications network:

(Continued on next page)

Al Pacheco KL7EKZ, Dan Haase KL7LW, Bill Reiter KL7ITI, Wilmot Warner AL7CU, Bud Laws KL7IBZ, Bill Morris N7BKY/KL7, Erv Edge AL7CN, Butch KL7OG, Reed McKinney KL7MJ, JD Delancy K1ZAT/NL7, April Walter AL7CV, Roger Hansen KL7HFQ Gary Carter KL7NE, Arlene Steward KL7HO, John Bierman KL7GNP, Steve Wilcox KL7JIM, Bruce Burpee KL7IV, Gene Morris KL7OK, Art Chase KL7FS, Don Koehler WB7WHK, Bob Doyle KL7NL, Sam Farney KL7HQJ, Bob McKinnie AL7AW, Kirsten Petersen KL7PQ, Ellen Edge KL7OR, Curt Harris KL7IUJ, John Williams AL7CT, Joyce Curman KL7MQ, Andy Anderson KL7JCW, Tim Pettis KL7WE, Betty Rhodes KL7AP, David Epstein KL7LO, Larry Walter KL7IWC. Thank you all for helping to make this year's Arts Fair a smashing success. And a big Thank You to Rosemary Hanrath KL7LA in the Valley for taking all the written traffic which wasn't actually passed at the activity!

LUNAR PATH KID PRODUCTIONS PRESENTS:

-----"An Evening with Captain Larsen"-----

Ever wonder what EME (Earth-Moon-Earth) was all about? Maybe you saw my talk last spring at the club meeting on Moonbounce. I am soon going to be taking down my system and would like to let as many of you as possible have a chance to experience EME antennas, EME systems, and hear an EME QSO first hand. On 10 October 1981, Saturday evening at 6:30-7:00 pm, you are invited to my home to an EME demonstration. I will arrange an EME schedule at 7:30 pm with Dave Olean K1WHS, in Maine. His "Maine Monster" antenna was featured on the front of Spetember QST. Directions to my home: 1-south on New Seward Highway; 2-West on DeArmoun Road to Old Seward; 3-North on Old Seward; 4-Right on Karen to top of hill; 5-First left on Sunset View Street; 6-I live at 13653 Sunset View Street about two blocks down on the right side of the street. Questions call 345-4757 between 6-7 pm ----- Jim Larsen WA0LPK/KL7.

----- MONTHLY CALENDAR IN A NEW LOCATION -----

- October 2 October general club meeting, UAA Consrtium Library, 7:00 pm -- Program is a talk by Mr. Bob Gould of Multivisions, Inc.
- 9 Iditarod Kickoff meeting at the Barbarick's (KL7IXT-Mike, and KL7IZJ-Deanna) in Peter's Creek-see inside for directions, 7 pm.
- 13 PARKA monthly meeting at the Pioneer Home, 7:00 pm. "Flower Arranging," bring flowers & a vase if you want to participate.
- 21 Board of Director's Monthly Meeting in the board room at Datco Realty, 4th and Denali, 7:00 to 10:00 pm.

PARKA Meeting note -- Tanya Delancy N1ESW advises all who are coming to the PARKA meeting on the 13th to monitor 34/94 on the way in to the Pioneer Home for the exact location in the building of the meeting.

----- YOU THOUGHT I FORGOT, BUT I DIDN'T!

Yes, there will be a November general club meeting. It will be on Friday, November 6, at 7:00 pm in the UAA Consortium Library. I may be dumb, but I ain't stoopid!

Those of you who haven't been checking into Bob McKinnie AL7AW's Thursday evening Amateur Radio Emergency Service (ARES) Net at 8:00 pm local on the WR7ACT (147.90/30) machine have been missing out on the social event of the week, for one thing; for another thing, Bob has just husbanded a brainchild of an idea -- a 24-hour long emergency exercise conducted by net members and happily interfaced with other emergency organizations. Bob wants more people checking into the net and getting involved in ARES anyway, but if you are moreover interested in getting involved in what could crack up to be a super activity, talk to Bob on the net. It's still in the planning stage and fresh ideas are welcome and needed!

----- ACC ARTS FAIR ADDITIONS -----

I forgot to mention in the Arts Fair write-up that Mark Hadley KL7HD and Roy Hansen KL7GQ put on a spectacular fast-scan TV show. Jim O'Kelly KL7HAE donated a color TV camera to the cause, which worked beautifully and transmitted broadcast-quality live TV pictures. Roy also sent computer-generated videotape footage.

A YL's Point Of View

It was the day of the ACC Arts Fair. Bones aching from the unaccustomed strain of walking (I'm about as active as your average turnip), I stumbled into one of the base stations for a respite. There I encountered the Living Legend: "Hello there, PQ, I hear you're writing a column for the newsletter!" I looked at him in complete surprise, for I hadn't heard I was writing a column for the newsletter. Who am I to doubt? Time reveals all; the Living Legend was right.

As the title implies, the purpose of this column is to provide a feminine perspective on ham radio. Though I'm certainly not the most qualified YL in the club, I'll accept the challenge. I would love to hear thoughts from all you other YL's out there, so please get it touch with me, if only to say hi. We're a definite minority in this club, and sometimes we get lost in the shuffle.

Noting the prevalence of call signs in ordinary conversation, a YL remarked to me, "Welcome to ham radio. You no longer have a name." Well, my given name is somewhat uncommon and I've never had a nickname, so hams jumped at the chance to use my call sign. But just for the record, since this is an introductory column, my name is Kirsten--KL7PQ. In my few short months as a ham, I've met a lot of really neat people. I look forward to meeting all of you in the future. Look for next month's column!

KL7PQ

Anchorage Amateur Radio Club
General Meeting
September 4, 1981

The meeting was called to order by President Betty Rhodes KL7AP, who subsequently announced that Frank Drake KL7IPV is unable to do the calligraphy for life membership certificates as he is in the hospital for knee surgery.

Following introductions, Sgt. Novaky of the Anchorage Police Department showed a film stressing home security and then answered questions from the group. He had some specific recommendations for protecting and identifying amateur radio equipment.

David Epstein KL7LO and Larry Walter KL7IWC discussed the September 12 Arts Fair preparations and asked for a few more volunteers and pieces of equipment. They were complimented by President Betty KL7AP for their overall efficiency in getting it all together.

Flea Market raffle chairman Joyce Curman KL7MQ asked that all who had tickets, stubs, or money please turn them in to her.

Mark Hadley KL7HD spoke briefly on the use of fast-scan TV. There are plans for a repeater to be placed in the Rabbit Creek area where the 22/82 repeater once was. He would like some help in setting up a simplex link.

Betty KL7AP asked for volunteers for a budget committee and got Mark Ennerson KL7OS and Reed McKinney KL7MJ.

Parka's meeting will be at the Pioneer Home with Mary Olendorf KL7BJD on Tuesday, September 8.

Wilse Morgan KL7CQ, as part of his progress report on the Flea Market, requested more help for some of the committees. Many members responded. Herb Rosenthal AL7G, our Little Ol' Storekeeper, was presented a red, white and blue hat, tie, and squeaky cane so that he may be appropriately attired for his position.

President Betty KL7AP presented three more life membership certificates: Fred Wegmer KL7HFM #32; CHARTER MEMBER Jasper Heath KL7MD #33; and Roger Hansen KL7HFQ #36.

Tim Pettis KL7WE announced plans for an antenna construction contest for his section of the Flea Market. He will also demonstrate the use of his spectrum analyzer.

Following the drawing for door prizes, the meeting was adjourned.

Attendance 69

A. Steward KL7HO, Secretary

BELT BUCKLE BLUES — the club belt buckles ordered in June have arrived!!
There are four left over that need to be picked up, so: KL7KI, Leo Nunes, and Joe Talbott, come to the October club meeting and claim them!!!
Those who want belt buckles that don't have can order at Oct. meeting!!!

Breaker! Breaker!

How do you "break in?" Let's consider the thoughts of Al Torres, KP4AQI, taken from the November 1978 issue of Worldradio — still very much up-to-date.

Break, breaker and broke

"The Webster dictionary defines the word 'break' 18 different ways. Let me give you a few: a) to cause to come apart by force; b) to make unusable or inoperative by disrupting; c) to disrupt the order or completeness.

"What can you break? You can break a glass; you can take a break; you can have breakfast; you can break a conversation. If you do that you are the 'breaker.'

"What kind of breakers do we have? We have circuit-breakers, ice-breakers, bottle-breakers and 'ham'-breakers.

"Most people let the ham breakers get into a conversation because they don't know what they're going to say. (It's like answering the phone; you do it because you don't know who's calling.) So to say 'break' in the middle of a conversation shows lack of consideration for your fellow amateur.

from 9/81 Worldradio

This seems like pretty good advice to me, since I was guilty of what the article describes!

Anchorage Amateur Radio Club

Board of Directors Meeting

September 16, 1981

re: : President Betty Rhodes KL7AP, Vice President Bob McKinnie AL7AW, reasurer Fred Toliver KL7HM, Secretary Arlene Steward KL7HO, Repeater trustee Bill Reiter KL7ITI, Membership Chairman April Walter AL7CV, ctivities Manager David Stevens KL7EB, Wilse Morgan KL7CQ, J.D. Delaney 1ZAT/NL7, Herb Rosenthal AL7G, Dave Cloyd KL7M, Jim Larson WAØLPK, David pstein KL7LO, Steve Norrell KL7IYX, and Lloyd Fuller KL7JGN.

Also Present: Steve Schroeder KL7ML, Mark Enerson KL7OS, Art Chase KL7FS, nd Andy Anderson KL7JCW.

The meeting was called to order by President Betty KL7AP. The minutes of the preceding general meeting were read and approved. Copies of the reasurer's report were distributed, discussed and approved.

Art Chase KL7FS, as chairman of the audit committee, read the committee's report. As a result of suggestions therein, it was decided that in the future minutes from both the general and board meetings should be read and approved.

"Now, let me suggest a concept. The word 'break' implies importance; we should use such word to report emergencies only. A traffic accident justifies the word 'break;' a 'break-break' implies a very serious emergency like someone bleeding to death.

"If you feel like getting into an existing repeater conversation, wait for the talker to drop his carrier and before the beep say your call. You are now telling those fellow amateurs that you want in. You are also saying you do not have an emergency to report. Common courtesies will be the executive ingredient for such action.

"If someone decides to 'break,' be prepared to help him immediately. If someone double-breaks, be prepared to go into full emergency conditions. In both cases the 'breaker' should have priority, and further conversation should cease.

"You will find that by just saying your call before the 'beep,' people will greet you by name (if they know who you are), will let you in for the existing conversation, and will not be extremely upset that you broke into their conversation.

"So in simple but strong words; *Thou shall break no more; big breakers become eventually broke ... W8XYZ ... beep.*

— The FM Scanner, Dayton, OH

Dave KL7M moved that each member of the board be given copies of the Articles of Incorporation, by-laws, and rules of procedure to be studied. Motion passed. There will also be copies made available to the general membership at the regular meetings.

Following a discussion of the use of the calendar year versus a fiscal year for accounting purposes, it was determined that establishment of a fiscal year will have to be approved by 2/3 vote of the members at the next general meeting in order to implement a change in the rules of procedure. We intend to leave membership on a calendar year and the present financial system set up from July 1 to June 31, congruent with the change of officers, if the members agree.

The audit report will be read to the general membership for their approval. A motion was made to the effect that letters of commendation be sent to the three Audit Committee members, Art KL7FS, Wilmot Warner AL7CU, and Kirsten Petersen KL7PQ. The motion passed unanimously.

Betty KL7AP noted a need for more members of the Budget Committee. These are to be recruited at the general meeting.

A discussion of the fact that our January general meeting will fall on New Year's Day was tabled until we can determine an alternate date of availability of the facility.

Our bingo license is continuing in a holding pattern.

Steve KL7IYX read the excellent letter that he has sent to trade magazines concerning our scholarship plans.

David KL7LO reported our Arts Fair participation to have been a resounding success and volunteered to compose a letter to UAA thanking them for the privilege.

President Betty KL7AP voiced our appreciation to Jim WAØLPK, Bill KL7ITI and Fred KL7HM for getting the emergency information cards done in time for the Arts Fair.

Betty KL7AP announced that Tim Pettis KL7WE will be starting novice classes soon.

There was more discussion of moving the site of the 34/94 repeater and some of the planned new Fairbanks link.

Wilse KL7CQ filled us in on the final stages of the organization of the Flea Market and asked approval of a plan to sell a collection of old professional magazines belonging to the club. Approval was given.

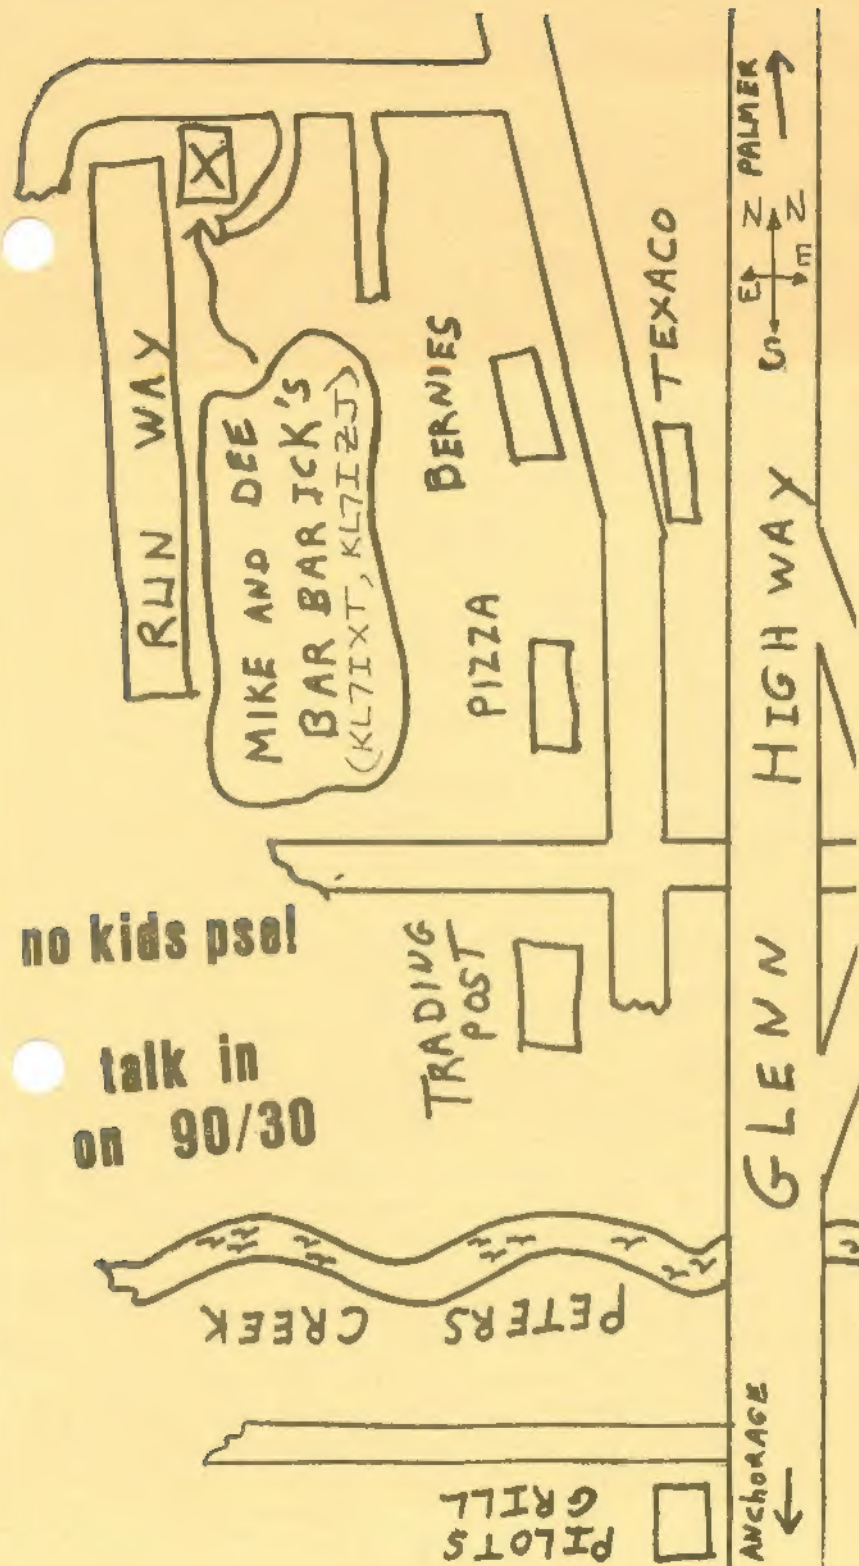

President Betty KL7AP announced the possibility of a combination Iditarod social and housewarming at the home of Mike Barbarick KL7IXT and Dee KL7IZJ. She also noted that Frank Drake KL7IPV needs a set of pens for making up the life membership certificates.

Herb AL7G asked a question about having a printing company do appreciation certificates for us, but no decision was made.

Dave KL7M asked about the propriety of selling some donated equipment and using the proceeds for the VHF repeater fund. There was no objection.

The meeting adjourned at 10:00 PM.

A. Steward KL7HO, Secretary

On your left is
now to get to the
Iditarod Kickoff
Party on 10/9/81
at 7 pm at Mike &
Deanna Barbarick's
QTH. Please bring
your own beer, pop,
and snacks, and
your wild stories
and pictures to
share with the
group.

Ken Delp KL7FD
advises me that he
will try to begin
the assignment of
checkpoints and
jobs for the 1982
Iditarod Trail
race (next March).

So, if you are
interested in
"going out on the
trail" next year,
or want to help
out in headquarters
why don't you come
to this get-
together and get
your plans started
early?

SEE YOU THERE!!

(Ken also says you
can join the "Idit-
arod Volunteer's
Assoc." for \$6/yr.
Next meeting 10/6,
7:30 pm, Eagle Riv.
Library. If you
want to join, you
may mail \$6.00 to
I. V. A., P. O.
Box 456, Chugiak,
Alaska 99567)

XYL/YL CORNER (Not to be confused with KL7PQ's "From the YL Viewpoint")

This little piece is from the 8/81 Western Carolina Amateur Radio Society Smoke Test. "33, the signature used between YL's is often misused and its origin tends to get lost. YLRL was organized in 1939 and it was at this time that, through YLRL, women Amateur Radio Operators seemed to find their niche. "YL" was adopted as a general term denoting any licensed Amateur feminine operator, regardless of age or marital status. "33" was originated this (1939) year by Clara W2RUF and adopted by YLRL for Exclusive YL use. It means "Love sealed with friendship between one YL and another YL. With this background and meaning, it is very understandable that "33" is not only exclusive with YLs but is never used in the plural. We sign "33", NEVER "33's"!

Edith WA4SRD

QST ARTICLES SOUGHT

QST is not just a radio magazine. It is the official journal of The ARRL, and you, the League member, are The ARRL. Therefore, QST is yours to use in sharing your technical knowledge and skills with radio amateurs the world over.

Since the League was founded, active amateurs have contributed technical articles that described projects they built for use in their ham stations. Other amateurs were aided greatly by the published information, and frequently duplicated the designs that were carried in QST. Wouldn't you like to experience the pride that goes with having an article appear under your byline in QST? If so, perhaps now is the time to write up that latest project of yours and submit it to our editorial staff! This could be the subject of a discussion at the next club meeting, or you may want to talk it over with your colleagues while on the air.

What? You're not a Writer!

You don't have to be a skilled writer to have an article accepted for publication in QST. That's why we have a trained editorial staff! We have prepared many excellent articles from handwritten letters, notes and diagrams. Some have actually won the QST Cover Plaque Award! So, please don't be bashful if you have an idea you'd like to share with others through the pages of QST. We'll even do the photography for you if you're willing to send your project to us for a few days.

What are Timely Topics?

We're looking for articles that describe projects of general reader appeal. This covers a range from 160-meter transmitters to microwave systems. Transmitters, receivers, converters, unique antennas, station accessories (other than keyers), amateur test equipment and homemade operating desks are all fair game.

A QST author's guide is available on request. Please consider becoming a QST author. Contact me by phone or letter if you desire additional information about submitting an article for publication.

VY 73,

Doug
Doug DeMaw, W1FB

Senior ARRL Technical Editor

7-16-81

ALASKA BUSH NET TO QSY! FLASH! BULLETIN! All you Bush-Netters out there, don't say you weren't forewarned! On October 1, 1981, the Alaska Bush Net will QSY up to 7.285 MHz. This is due to a QRM DX net on 7250 that has been plaguing us! ALSO, when we go on standard time later on in October, the net will still meet at 6:30 pm Anchorage time (or, 0430Z). Don't say I didn't tell you! I got enough trouble as it is without you on my back!

OK, MORGAN, HERE IS YOUR FLEA MARKET ARTICLE"

But I'm going to do it my way! His stuff can wait! My post-Field Day Article got such rave reviews that I decided to dream up an analogous one for Flea Market, whaddaya think of that?

Let's see, where do I begin? Well, this thing had been in the works for one heck of a long time, you know. The first signs of panic manifested themselves as we were basking in the July sunshine (?), when Denali realized that not only did we not have a site, but the all-important raffle tickets had not been printed up! So he quick sent out Scout Stevie Wilcox KL7JIM on a reconnaissance mission and boy did he do a bang-up job! He is the person responsible for finding our Flea Market site, which, as we all know by this point in time, was, to paraphrase the Living Legend, "The greatest thing since night baseball." SO KUDOS TO STEVIE! HE DESERVES THEM! (Don't get upset. There are more kudos to come. Read on.)

Right from the start I knew this was going to be a class operation. I mean let's face it, with He Who Causes to Be in Charge, could it go any other way. Look at the facts. We had Mary Lewis W7QGP, ARRL Northwest Division ARRL Director up here. She is a neat person, and what's more, I can see where she would fit right in on a week-long DXpedition to Tangle Lake. We also had Jim Meacham ZL2BHF, A Director from the New Zealand Association of Radio Transmitters, and the crowd-pleasing Jim Smith KA7APJ, complete with the manic personality and great one-liners. Plus the chairman of the "I Dripped for Herb's Kids" campaign, Mr. Herb Rosenthal AL7G, who not only masterminded the club store at Flea Market once again, but also took charge of the arrangements for the gala banquet at the Pines Club at which we all had a great time. Even I did, and that's saying something!

Needless to say, this is the biggest shtick the club puts on during the year. How Wilse and Betty can persevere through it and come out almost intact mentally and physically is beyond me. Things started building to their inevitable crescendo in late August (when the 3 of us sought refuge in the sun atop Sexy Prexy Hill) and early September. Before one knew it the time had drawn nigh and it was Flea Market weekend.

For me, Flea Market weekend began on Friday. I drove over to Alyeska to swap vehicles with Bob McKinnie AL7AW. I drove off in the "Root Beer Truck" and headed to some greasy spoon cafe by Merrill Field where I had to buy everyone coffee just to get them out of there and on to work! We all marvelled at an attractive XYL in a Camaro as we headed over to Fur Rondy headquarters to pick up some 75 (approx.) tables and chairs which

----- MORGAN'S FLEA MARKET ARTICLE, cont'd. -----

Sandy Hauser had arranged for us. Myself, Bill Barber KL7GM, JD K1ZAT/NL7, and cracker-jack student Betty Rhodes KL7AP (also our club president) provided the slave labor. We had to make two trips! Anyway, by the time we got down to the site, Lloyd Fuller KL7JGN had just about finished wiring the "site" for lighting, which worked out perfectly. Lloyd and crew did a fantastic job jury-rigging the system and everyone had all the lumens they could use!

The rest of the day was spent in the service of the Living Legend, making stops here and there, picking up door prizes and other items for the club booth. By the time evening rolled around, it was just about wrapped up. We were ready for the Armageddon of Flea Markets.

And it sure was one for the record books. I'll bet the folks who owned that little sody pop/pretzel/ice cream concession in the hallway think so, too! From what I could see, the bucks were changing hands. I saw lots of IC-720A's and PS-15s walk out of there. The "stubby duckie" was also a popular item, as was the TR-2400 and IC-2AT. I really got heartsick looking at all the things I wanted but couldn't afford.

I think the highlight of the whole weekend was the gourmet banquet on Saturday night. I told Herb this already, but he did a marvelous job in getting that thing together. The food was great, there was enough for everyone, and the company was second to none. It did my heart good to see that those who have been helped out by JD Delancy K1ZAT/NL7 thought enough about his safety and cared enough about him as a person to buy him that mil-spec climbing belt. Now what I'd like to know is how Tanya is going to upstage that!

OK, I've QRM'd this subject enough. Now here is what Morgan wanted me to put in. And if he hadn't wanted me to, I'd have done it on my own.

There is no total dollar figure in yet as to how we fared at Flea Market, our loyal Treasurer Fred Toliver KL7HM is putting in overtime getting it together. KUDOS and thanks to Lloyd Fuller KL7JGN, our Booth Chairman and the person primarily responsible for wiring the room and setting up the lights, with help from K1ZAT/NL7 and crew. KUDOS and thanks to AL7G Herb Rosenthal, our Little Old Storekeeper, and his loyal helpers, Fred Wegmer KL7HFM, Bill Capers AL7BB, Don Bush KL7JFT, and Bill Reiter KL7ITI. KUDOS & thanks to our beloved JD Delancy K1ZAT/NL7, the only zat in Alaska, who set up the technical displays and ran the club station (and blew up KL7FD's Dentron linear). KUDOS and thanks to Darling April Walter AL7CV for personing the club membership table and signing up so many people for classes. KUDOS and thanks to Betty Rhodes KL7AP and Arlene Steward KL7HO for selling tickets. KUDOS and thanks to Sue Pettis KL7OX and Beth Anderson for selling copious amounts of the ever-important raffle ticket. KUDOS and thanks to the Roustabout Corps, comprised of Erv Edge AL7CN, David Epstein KL7LO, Steve Wilcox KL7JIM, Larry Grindrod KL7PX, Bill Barber KL7GM, Curt Harris KL7ILJ, David Stevens KL7EB, Dan Rogers KL7NB, Andy Anderson KL7JCW, Kirsten Petersen KL7PQ, Wilmot Warner AL7CU, Mark Hadley KL7HD, Bud Epperson KL7CP, Tom Spare KL7LQ, Reed McKinney KL7MJ, and Butch K.7OG, AND students

Swede and Mike. Without their help, the show could not have gone on.

KUDOS and thanks to KL7HJD (the Happy Jolly Dancer) for providing the Field Day Special Red Chinese generator which performed so beautifully and played such a key role in making the whole shebang a success.

KUDOS and thanks to Jim Larsen WAØLPK for running the club video film.

KUDOS and thanks to AL7AP for furnishing the lights so everyone could see how much money they were spending. Ouch!

KUDOS and thanks to Tim Pettis KL7WE for running the Tweak-n-Peak function.

KUDOS and thanks to Tanya Delancy ex-WA1RVG, now N1ESW, for doing a great job running the cashier booth.

OK wilse, there you go. Just think, only approx. 350 more days to Flea Market 1982!!

***** **
Well folks, the two busy weekends in a row are over for another year--the ACC Arts Fair and the annual Flea Market. I would like to thank all who participated in both events..the time and hard work by everyone is appreciated and necessary for success.

Just a couple of reminders on upcoming projects--the SCM election will be held with the ballots being mailed from ARRL headquarters in Newington on Oct. 1, they must be returned to be received in time for the Nov. 17 ballot counting. Wilse Morgan, KL7CQ is running with the AARC's endorsement. Rick Henry AL7O from Tok is also running ,making it possible for an actual election instead of election by proclamation. REMEMBER TO VOTE AND GET THE BALLOT BACK IN TIME!!!!.

The Iditarod Kickoff-House warming party will be Oct. 9 at Deanna KL7IZJ and Mike KL7IXT Barbarick's new QTH- more details elsewhere and at the Club meeting.

Winter is here with our first snow, but that is not the end of Ham activities. Bob AL7AW will be organizing the annual SET exercise for the weekend of the 17-19. Check into the 90/30 net and come to the Oct. 2 meeting for details on this much needed emergency exercise. HF and VHF under emergency and other power will be utilized-let's make sure WE ARE PREPARED for the disaster that is long over-due in Anchorage. As Amateur Radio Operators we, more than the Boy Scouts, must hold ourselves ever-ready for providing communications during emergencies.

.....
The Anchorage Amateur Radio Club, Inc., is affiliated with the Anchorage Community College and the University of Alaska, Anchorage, through their Community Affairs Programs.

If you have an article for the newsletter which you'd like to see in print, give me a shout. David Epstein KL7LO 276-0787 after 5 pm.

WILSE MORGAN KL7CQ
IS RUNNING FOR SCM, ALASKA
Wilse wants to represent YOU

AS SECTION COMMUNICATIONS MANAGER

THE FOLLOWING BRIEF RESUME ATTESTS TO WILSE'S COMMITMENT TO AMATEUR RADIO:

MEMBER: ARRL, AMSAT, Anchorage Amateur Radio Club

MEMBER: Matanuska Amateur Radio Association, Arctic Amateur Radio Club,
New Zealand Association of Radio Transmitters.

Present Board Member, Past President and Activities Manager, Ham of the
Year, Anchorage Amateur Radio Club

Director of Communications, Alaska Wing, Civil Air Patrol

Instructor of Amateur Radio Classes over the past 8 years. Results: 400

New Licensees--roughly 1/3 of Alaska's ham population.

For the past 10 years, Wilse has directed all fund-raising activities
for the AARC, including the popular Electronics Flea Market. As a result,
the club treasury has over \$10,000 in assets.

Wilse's record of dedication, innovation, and accomplishment speaks for
itself. So, this October -- VOTE FOR AMATEUR RADIO!

Once again, we lift our glasses in a toast to the Darling April Walter AL7-CV, who has taken it upon her ever-shrinking little self to handle the club membership duties. If you, yes YOU, have recently experienced a call sign change, address/phone no. change, etc., upgrade, etc., please call this fall lass at 345-0507, or QRM the club record-a-phone 345-0719, so we may keep our CIA-approved records up to snuff. Lest we forget another workhorse, } can all thank Bob Page KL7HIU for printing up the roster and labels on his versatile TRS-80 computer!
